

**NOTE**

1. The bridge is designed for a design speed of 40 km/h.

2. The bridge is designed for a design load of 100 kN/m.

3. The bridge is designed for a design wind speed of 15 m/s.

4. The bridge is designed for a design seismicity of 0.1 g.

5. The bridge is designed for a design temperature range of -20°C to +40°C.

6. The bridge is designed for a design humidity of 70%.

7. The bridge is designed for a design air quality of 100 µg/m³.

8. The bridge is designed for a design noise level of 65 dB(A).

9. The bridge is designed for a design vibration level of 0.1 m/s².

10. The bridge is designed for a design lighting level of 10 lux.

11. The bridge is designed for a design drainage level of 0.5%.

12. The bridge is designed for a design maintenance level of 1000 km².

13. The bridge is designed for a design safety level of 1000 km².

14. The bridge is designed for a design security level of 1000 km².

15. The bridge is designed for a design health level of 1000 km².

16. The bridge is designed for a design environment level of 1000 km².

17. The bridge is designed for a design culture level of 1000 km².

18. The bridge is designed for a design social level of 1000 km².

19. The bridge is designed for a design economic level of 1000 km².

20. The bridge is designed for a design political level of 1000 km².

21. The bridge is designed for a design legal level of 1000 km².

22. The bridge is designed for a design moral level of 1000 km².

23. The bridge is designed for a design spiritual level of 1000 km².

24. The bridge is designed for a design physical level of 1000 km².

25. The bridge is designed for a design mental level of 1000 km².

26. The bridge is designed for a design emotional level of 1000 km².

27. The bridge is designed for a design intellectual level of 1000 km².

28. The bridge is designed for a design aesthetic level of 1000 km².

29. The bridge is designed for a design ethical level of 1000 km².

30. The bridge is designed for a design legal level of 1000 km².
