DISPOZIŢII GENERALE

la livretele cu mersul trenurilor de călători (rang II, III şi IV)

„ PLANUL DE MERS STĂ LA BAZA COORDONĂRII

OPERAŢIUNILOR DE TRANSPORT FEROVIAR “

(Regulamentul de Exploatare Tehnică Feroviară – art. 154)

1. În planul de mers **2026/2027** livretele de mers de călători se prezintă astfel:

1.1. Livretul central care cuprinde trasele trenurilor de călători în trafic internaţional (rang II, III şi IV), intercity (rang II) şi interregio (rang III).

1.2. Livretele regionale, care cuprind trasele trenurilor din categoria regio (rang IV) şi elemente de grafic pentru întocmirea traselor trenurilor compuse din vagoane defecte, garnituri goale, trenuri de probă, precum şi locomotivelor izolate de pe secţiile de circulaţie aferente fiecărei Sucursale Regionale Cale Ferată: Bucureşti, Craiova, Timişoara, Cluj, Braşov, Iaşi, Galaţi şi Constanţa. Programarea şi circulaţia trenurilor compuse din vagoane defecte, garnituri goale, trenuri de probă, precum şi locomotivelor izolate se face cu numere din gama alocată fiecărui OTF. Cererea pentru punerea în circulație se va face de către operatorul de transport feroviar și va conține următoarele:

- ora de plecare;
- compunere;
- tipul și caracteristicile tehnice ale materialului rulant;
- modul de remorcare;
- viteza maximă de circulație;
- alte condiții tehnice necesare.

Anexele generale, care se regăsesc la toate livretele regionale, sunt:

Anexa 1 - Tonaje maxime şi modul de remorcare;

Anexa 2 - Intervale de circulaţie pe linie dublă pentru care viteza maximă este diferită pe sensuri (fire) de mers;

Anexa 3 - Limitări de viteză permanente;

Anexa 4a - Elemente de grafic pentru intocmirea mersurilor trenurilor compuse din vagoane defecte;

Anexa 4b - Elemente de grafic pentru intocmirea mersurilor trenurilor compuse din garnituri goale;

Anexa 4c - Elemente de grafic pentru intocmirea mersurilor trenurilor de probă;

Anexa 4d - Elemente de grafic pentru întocmirea mersurilor locomotivelor izolate.

Anexa 5 - Elemente pentru întocmirea mersurilor trenurilor de călători pentru distanţele de circulaţie pe care de regulă, nu circulă permanent trenuri de călători;

2. În livretele cu mersul trenurilor de călători sunt prevăzute trasele trenurilor de călători, vitezele de circulaţie, timpii de mers inclusiv adaosurile de timpi de mers datorate restricţiilor de viteză planificate prevăzute în graficul de circulaţie.

3. Tonajele maxime ale trenurilor de călători sunt stabilite conform prevederilor instrucţiilor de serviciu, avându-se în vedere caracteristicile liniei şi ale materialului rulant, iar modul de remorcare este prevăzut în Anexa 1 la livretele cu mersul trenurilor de călători.

Pentru calculul timpilor de mers aferenţi trasării trenurilor de călători s-au utilizat tonajele solicitate de către OTF prin comanda alocării de trase şi au fost trecute la fiecare trasă.

Tonajele maxime de remorcat sunt stabilite pe secţii de circulaţie, numărul secţiei fiind cel din graficul cu limitările de viteză permanente. Tonajele maxime ale trenurilor de călători, cuprinse în livretele cu mersul trenurilor de călători, nu vor depăşi valorile tonajelor şi modurile de remorcare prevăzute în Anexa 1 a livretelor respective.

3.1. Compunerea unui tren de călători poate fi modificată de către operatorii de transport feroviar în limitele tonajului maxim solicitat prin comandă şi menţionat la compunerea fiecărui tren. Acest tonaj asigură circulaţia regulată şi respectarea siguranţei circulaţiei. Solicitarea măririi tonajului trenului, până la tonajul maxim de remorcat de pe secţiile respective (Anexa 1), poate conduce la depăşirea timpilor de mers, precum şi la depăşirea lungimii trenului faţă de lungimea peroanelor din unele staţii cu oprire. În aceste cazuri eventualele implicaţii negative vor fi analizate în sarcina operatorului de transport feroviar.

Operatorii de transport feroviar pot utiliza rame automotor în locul vagoanelor respectând tonajul maxim şi viteza impusă în livret pentru trenul respectiv, eventualele implicaţii negative vor fi analizate în sarcina operatorului de transport feroviar.

Modificarea compunerii trenurilor de călători față de planurile de compunere se face cu respectarea prevederilor din *Procedura operațională "Programarea circulației trenurilor*".

3.2. În cazul în care operatorii de transport feroviar doresc modificarea compunerii trenurilor formate din rame automotor, cu vagoane, aceştia vor lua în prealabil acordul Direcţiei/Diviziei Trafic în funcţie de rangul trenurilor şi relaţia de circulaţie cu respectarea prevederilor din *Procedura operațională "Programarea circulației trenurilor*" .

3.3. În ambele cazuri (3.1 şi 3.2) operatorii de transport feroviar vor emite telegramă, sau dispoziţie scrisă, de modificare a compunerii trenurilor către toţi factorii interesaţi şi spre ştiinţă Direcţiei/Diviziei Trafic. Eventualele întârzieri şi/sau alte aspecte negative, datorate acestor modificări, se vor analiza în contul operatorului de transport feroviar care a solicitat modificarea compunerii.

4. Staţiile care au platforma cu declivitate 1-2 mm/m, 2-6 mm/m şi peste 6 mm/m sunt cuprinse în Dispoziţiile privind punerea în aplicare a planului de mers al trenurilor pe Sucursalele Regionale de Cale Ferată 1-8.

5. Trenurile de călători care au în compunere vagoane cu frână nemoderabilă la defrânare au înscrisă în livret menţiunea "Frână nemoderabilă la defrânare". Viteza maximă a acestor trenuri nu va fi mai mare de 100 km/h.

6. Pentru satisfacerea cerinţelor suplimentare de transport în perioadele de vârf de trafic generate de sezon, sărbători legale, sfârşit de săptămână, etc. sunt prevăzute trenuri sezoniere şi trenuri de călători cu perioadă limitată de circulaţie.

În unele cazuri aceste trenuri sunt înscrise în graficul de circulaţie fără a ţine cont de trasele trenurilor de rang inferior, iar liniile de garare, încrucişările şi trecerile înainte cu alte trenuri se vor stabili de operatorul circulație, respectându-se rangul trenurilor (Regulamentul 005, art. 122, pct. 1).

7. Menţiuni privind acordarea ferestrelor de circulaţie pentru lucrări la linie şi instalaţii.

7.1. Pe secţiile de circulaţie cu linie dublă în perioada ferestrelor de grafic pentru revizii, lucrări la linie şi instalaţii, la trasarea trenurile de călători (rang II, III şi IV) nu s-au mai acordat opriri "tehnice" pentru încrucişări în staţii intermediare.

Trenurile au fost trasate în condiţiile liniei duble, iar locul unde ar urma să aibă loc încrucişarea va fi consemnat strict teoretic.

Trenurile care aşteaptă încrucişare cu trenurile din sens opus, sunt trecute în ***Anexa 4*** – „Intervale libere de circulaţie (ferestre) pentru efectuarea lucrărilor", în coloana „Observaţii" de la „*Dispoziţiile privind punerea în aplicare a planului de mers al trenurilor*". În situaţia în care se produc întârzieri din diverse cauze, operatorul circulație va realiza încrucişarea în funcţie de circulaţia reală, fără a ţine cont de observaţiile din ***Anexa 4*** de la „*Dispoziţiile privind punerea în aplicare a planului de mers al trenurilor*", astfel încât întârzierile trenurilor de rang superior să fie minime.

7.2. Pe secţiile de circulaţie cu linie simplă trenurile de călători (de rang II sau III) au fost oprite pentru încrucişări în staţii intermediare, opriri considerate "tehnice".

Aceste opriri, marcate în livrete cu semnul ■, nu sunt acordate pentru îmbarcări - debarcări de călători, ele nefiind trecute în oficios.

În perioadele când nu se execută revizii sau lucrări la linii şi instalaţii, sau atunci când încrucişarea rezultă în altă staţie (întârzieri de trenuri), operatorii circulație pot da dispoziţie pentru suprimarea opririi trenului, sau reducerea acestei opriri, marcată cu semnul ■, trenul circulând timpuriu până la noua staţie fixată pentru încrucişare sau până la prima staţie cu oprire comercială, de unde va pleca regulat.

Personalul operatorilor de transport feroviar nu va emite legitimaţii de călătorie pentru staţiile marcate în livrete cu semnul ■.

8. Readucerea trenurilor de călători întârziate în trasa din graficul de circulaţie sau evitarea producerii de întârzieri se poate face prin:

a) scurtarea duratei opririlor prevăzute în staţii;

b) scurtarea timpilor de mers fără depăşirea vitezei maxime admise valorificând:

- adaosurile de timp de mers incluse în timpii de mers pentru restricţiile de viteză prevăzute în graficul de circulaţie, dar care nu sunt pe teren;

- tonajele mai mici faţă de tonajele maxime pentru care sunt stabiliţi timpii de mers;

c) suprimarea sau reducerea opririlor marcate cu semnul ■;

d) circulaţia pe firul din stânga în cazul în care viteza maximă este mai mare decât pe firul normal (viteză marcată cu semnul **) şi circulaţia permite acest lucru.

9. După punerea în aplicare, modificarea planului de mers la trenurile de călători cuprinse în livrete se aprobă şi se difuzează după cum urmează:

9.1. Alocarea de trase noi, respectiv anularea traselor prevăzute în planul de mers al trenurilor, se face astfel:

- cu aprobarea conducerii **Direcției Trafic** pentru trenurile care circulă în trafic internaţional, în rangul II, III, IV trafic internaţional și pentru trenurile de rangul IV care circulă pe două sau mai multe Sucursale Regionale de Cale Ferată, iar difuzarea telegramei în reţea se face de către Serviciul Alocare Capacitate din cadrul Direcţiei Trafic;

- cu aprobarea conducerii **Diviziilor Trafic din Sucursalele Regionale de Cale Ferată 1-8** pentru trenurile de rangul IV, care circulă pe o singură Sucursală Regională de Cale Ferată, iar difuzarea telegramei în reţea se face de către Serviciul Alocare Capacitate din cadrul Diviziei Trafic.

Revocarea unei trase de călători se poate face dacă aceasta nu a fost utilizată mai mult de 45 de zile de circulație consecutive. În calculul termenului de neutilizare a trasei se are în vedere:

a.Trenuri care nu circulă în perioada vacanțelor școlare. Termenul începe să curgă din prima zi în care trenul trebuia să circule. Din perioada de neutilizare se scade perioada vacanțelor școlare ;

b.Trenuri sezoniere. Termenul începe să curgă din prima zi în care trenul sezonier este programat să circule. Din perioada de neutilizare se scad zilele în care trenul nu era programat să circule;

c.Trenuri care circulă în anumite perioade din an. Termenul începe să curgă din prima zi în care trenul era programat să circule. Din perioada de neutilizare se scad zilele în care trenul nu era programat să circule;

d.Trenuri nou introduse în planul de mers actual. Termenul începe să curgă din prima zi în care trenul trebuia să circule;

e.Trenuri cu circulație permanentă. Termenul începe să curgă din prima zi în care trenul trebuia să circule.

f.Trenuri cu circulație permanentă care în anumite perioade circulă pe variante. Termenul începe să curgă din prima zi în care trenul trebuia să circule. În calculul perioadei de 45 de zile sunt incluse și zilele în care trenul circulă pe variantă. În momentul revocării se revocă și varianta.

9.2. Modificarea orarului traselor trenurilor, modificarea caracteristicilor tehnice (viteze maxime, tonaje trenuri, distanţe kilometrice, timpi de mers, adaosuri de timp de mers pentru restricţii) se va face astfel:

- cu aprobarea **Direcţiei Trafic** pentru trenurile care circulă în trafic internaţional, în rangul II, III, IV trafic internaţional şi pentru trenurile de rangul IV care circulă pe două sau mai multe Sucursale Regionale de Cale Ferată, iar difuzarea telegramei în reţea se face de către Serviciul Alocare Capacitate din cadrul Direcţiei Trafic

- cu aprobarea conducerii **Diviziilor Trafic 1-8** pentru trenurile de rangul IV, care circulă pe o singură Sucursală Regională de Cale Ferată, iar difuzarea telegramei în reţea se face de către Serviciul Alocare Capacitate din cadrul Diviziei Trafic.

9.3. Punerea în circulaţie a trenurilor ad-hoc /variante de grafic cauzate de indisponibilitatea infrastructurii sau trenurile special comandate şi turistice se face prin telegramă emisă de către:

a) Regulatorul Central de Circulaţie din cadrul Direcţiei Trafic, pe baza mersurilor puse la dispoziţie de Serviciul Alocare Capacitate, pentru trenurile care circulă pe două sau mai multe Sucursale Regionale de Cale Ferată.

b) Diviziile Trafic pentru trenurile care circulă pe raza unei singure Sucursale Regionale de Cale Ferată.

9.4. Telegramele emise conform pct. 9.1, 9.2 şi 9.3 vor fi adresate tuturor subunităţilor interesate din cadrul CNCF "CFR" S.A, SC Informatica Feroviară SA, operatorilor de transport feroviar de călători, precum şi altor factori interesaţi.

9.5. Telegrama va cuprinde toate elementele necesare tecturării, modificării sau completării livretelor.

În cazul în care modificările sunt mai ample, precum şi în cazul alocării de noi trase, tecturile, modificările sau completările vor fi trimise la toate subunităţile interesate, sub forma mersului de tren din livret, care vor fi apoi ataşate în livretul respectiv.

9.6. Cererile şi aprobările de modificare a planului de mers vor respecta perioadele minime de avizare atât a personalului CFR, cât şi a publicului călător.

9.7. Punerea în circulaţie, în mod operativ, a unor trenuri compuse din locomotive izolate, care circulă pe raza unei singure Sucursală Regională de Căi Ferate, se face de către Regulatorul Regional de Circulaţie din cadrul Diviziilor Trafic respective.

9.8. În cazul anulării unor trenuri de rang II, III şi IV, implicit se vor anula şi garniturile goale (G) aferente trenurilor respective în relaţiile nemaifiind necesară altă telegramă de anulare pentru garnituri.

10. Pe secţiile cu linie dublă s-au identificat porţiunile de linie pe care vitezele maxime constructive ale liniei diferă de pe un fir pe altul, ele fiind evidenţiate în Anexa 2 la livretele cu mersul trenurilor de călători.

10.1. Pentru evidenţierea acestor diferenţe s-au folosit următoarele semne aplicate în coloana "Vit. max." din mersul trenului:

***** viteza pe firul din stânga este **mai mică** decât viteza de pe firul normal de circulaţie;

****** viteza pe firul din stânga este **mai mare** decât viteza de pe firul normal de circulaţie.

Operatorii de transport feroviar vor instrui personalul privind modul de interpretare şi aplicare a acestor semne din trasa trenului.

10.2. Pe unele distanţe de circulaţie (cu pante mai mari de 8 ‰), din cauza procentului de masă frânată insuficient, trenurile pot avea viteza din livret mai mică decât viteza maximă permisă de linie. În acest caz mecanicul va conduce trenul cu viteza din livret menţionată la trenul respectiv, chiar dacă circulă pe firul din stânga. În aceste situaţii, vitezele din trasa trenului, pe distanţa respectivă, nu au nici o menţiune specifică. Aceste distanţe vor fi identificate de către fiecare Sucursală Regională de Căi Ferate şi vor fi prevăzute în cadrul dispoziţiilor specifice fiecărei sucursale.

11. Semnificaţia semnelor folosite în livretele de mers este:

- * - în coloana “Vit.max.” – viteza pe firul din stânga este mai mică decât viteza de pe firul normal de circulaţie;
- ** - în coloana “Vit. max.” – viteza pe firul din stânga este mai mare decât viteza de pe firul normal de circulaţie;
- # - în coloana “Vit. max.” – trenul circulă pe firul din stânga;
- ■ - din coloana “staţii - halte”, oprire care poate fi suprimată sau redusă ca durată;
- ● - din coloana “staţii - halte”, corespunde unei viteze maxime de circulaţie peste schimbătoarele de cale la intrare - ieşire din staţii de 100 km/oră;
- ⊗ - din coloana “staţii - halte”, reprezintă oprire acordată pentru efectuarea reviziei tehnice în tranzit la trenurile de călători;
- ▲ - din coloana “opriri”, corespunde unei opriri de 30 secunde;

Cifrele din subtitlul trenului reprezintă:

1 = luni, **2** = marţi, **3** = miercuri, **4** = joi, **5** = vineri, **6** = sâmbătă, **7** = duminică;

- SL- sărbători legale;

Hm. - haltă de mişcare deschisă pentru toate traficurile;
hcv. - haltă deschisă pentru traficul de călători şi marfă;
hc. - haltă deschisă pentru traficul de călători, cu vânzător de bilete;
h. - haltă deschisă pentru traficul de călători, fără vânzător de bilete;
PO - punct de oprire

12. În cazul în care OTF solicită trase pentru trenurile de călători care vor avea în compunere material rulant automotor cu gabaritul CFR vagon de încărcare depășit, care se încadrează în gabaritul 0-VM, conform OMTI nr.3815 din 07.11.2024, în livretele de mers, la toate trasele, la care este cazul, se va face mențiunea:

„Are în compunere material rulant automotor cu gabaritul CFR vagon de încărcare depășit, care se încadrează în gabaritul 0-VM”.
